The screenshot shows the Passport to Steel website interface. At the top, there's a navigation bar with 'Feedback', 'F.A.Q.', 'Help', and 'Logout' buttons. Below that, there are tabs for 'Search', 'Coated Steels', and 'Reference Center'. The main search area has three columns: 'SEARCH TYPE' with radio buttons for 'find steel data' (selected) and 'find comparable steels'; 'SPECIFICATION' with a text input field and examples: A240, 10028-3, G4110, J403; and 'DESIGNATION' with a text input field and examples: 304L, 1.4306, S30403, X2CrNi18-9, SUS304L. A 'Search' button is located to the right of the Designation field. There is also a 'Go to Advanced Search' link.
