

NEW! IEEE COMPUTER SOCIETY PERIODICALS PACKAGE

The IEEE Computer Society Digital Library (CSDL) is the premier collection of computing periodicals and conference publications. The new Periodicals package allows you to access all 27 technical magazines and research journals, including all archives, in the CSDL.

THE CONTENT YOU NEED...

Covering the Entire Field

- Computer

Artificial Intelligence

- IEEE Intelligent Systems
- IEEE Transactions on Learning Technologies
- IEEE Transactions on Pattern Analysis and Machine Intelligence

Biotechnology

- IEEE/ACM Transactions on Computational Biology and Bioinformatics

Computer Hardware

- IEEE Computer Architecture Letters
- IEEE Design and Test of Computers
- IEEE Micro
- IEEE Transactions on Computers

Graphics and Multimedia

- IEEE Computer Graphics and Applications Computer
- IEEE MultiMedia
- IEEE Transactions on Visualization and Computer Graphics

History of Computing

- IEEE Annals of the History of Computing

Human Centered Computing

- IEEE Transactions on Affective Computing
- IEEE Transactions on Haptics

Internet and Data Technology

- IEEE Internet Computing
- IEEE Transactions on Knowledge and Data Engineering
- IEEE Transactions on Services Computing

IT and Security

- IT Professional
- IEEE Security and Privacy
- IEEE Transactions on Dependable and Secure Computing

Mobile Computing

- IEEE Pervasive Computing
- IEEE Transactions on Mobile Computing

Networking

- IEEE Transactions on Parallel and Distributed Systems

Scientific Computing

- Computing in Science and Engineering

Software

- IEEE Software
- IEEE Transactions on Software Engineering

FREE TRIAL

Your institution may qualify for free trial of the CSDL. Email csdl@computer.org for more details.

SUPERIOR FEATURES FOR YOUR BENEFIT...

- Free RSS feeds notify your users of newly added content of interest
- Daily updates, including Preprints and Rapid Posts, for immediate access to new articles
- Multiple options for searching and browsing to serve various needs
- Clickable math in all HTML documents enable users to cut and paste equations and formulas for their immediate use
- Multimedia and Web extras for select articles provide a deeper understanding of the research
- Customizable welcome message for your institution is automatically generated
- Download citations in multiple formats makes doing your bibliographic references easier
- ACM metadata exchange allows for single searches across both collections
- OpenURL and XML Gateway enabled to lead your users to the appropriate resource

New and an Incredible Value!

We are introducing the Periodicals package in order to bring more content to more customers at a much lower price. A subscription provides online access for 12 months to all archives of all 27 periodicals in the CSDL at a 51% discount from the individual periodical subscription rates. Ideal for academic, government, or corporate institutions with a limited budget or those that don't need the latest research being published in the conference publications.
