IEEE Draft Standards Online Subscription

Get an Edge on the Competition!

Add Draft Standards to Your IEL Subscription and Access Tomorrow's Standards First!

Get Connected to IEEE Standards

Maximize product development and R&D, while minimizing research time, with IEEE Draft Standards Online, the most essential information in technology today. With instant, easily-searchable access via the IEEE *Xplore* digital library, immediate updates and automatic alerts, the IEEE Draft Standards Online Package will provide your company with the competitive advantage it needs.

By adding IEEE Draft Standards access to your IEEE/IET Electronic Library (IEL) subscription, your organization can see the content of a developing standard before it is published to help facilitate early compliance and implementation on the standard.

Your researchers will have an early understanding of the requirements and philosophy of standards under development and get advanced insight into technical solutions and practices being proposed.

IEEE Draft Standards Help You:

- Get your products to market faster
- Stay ahead of the competition through awareness of new technologies
- Increase sales by rapidly responding to new technology opportunities
- Increase productivity by reducing research time and lessening the risk of early design errors

Add Drafts Standards to Your IEL Subscription to Access:

- Unapproved Drafts—a combination of revisions of previous standards and brand new ideas that are still in the standards development process
- Approved Drafts awaiting standard publication (it usually takes 3 to 6 months for an approved standard to be published)

Also included are Approved and Archived Standards which have been superseded by a published standard but provide the complete history of a standard's evolution.

» SEARCH TIP

For a complete current listing of all IEEE Draft Standards in IEEE *Xplore*:

- Go to www.ieee.org/ieeexplore
- Click on Advanced Search
- Enter **draft<in>status** in the OPTION 2 Search Field
- Set the max results value to 500
- Run the Search
