

Connect to the Ultimate Mobility Engineering Resource – SAE Digital Information Solutions

SAE Technical Papers – A century of technical innovation is only a mouse click away

Now you can have instant access to all the latest technical papers from the last 10 years in the SAE Digital Library! Each paper brings innovative technology and applied industry expertise to the most critical topics in the mobility industry today. If it impacts the mobility industry, it was first presented as a technical paper at an SAE event.

With electronic access to the vast library of SAE Technical Papers, your business will benefit from the following key features:

- Computer application provides search features and access to these documents 24/7
- Contains full-text documents in .pdf format
- A full bibliographic database with abstracts is included

Benefits of Using SAE Technical Papers:

- Technical papers help your organization keep current with advancements in ground vehicle, aerospace and commercial vehicle technology
- Provides access to historical information that may be hard to find or no longer be available from other sources
- Provides perspective of knowledgeable and experienced subject matter experts from the field
- SAE publishes over 2,000 papers each year so vital information on critical topics is always available
- Submissions are reviewed and filtered to ensure the content addresses a new or original contribution to the state of the art or is a constructive review of its technical field

Having access to SAE technical papers impacts your corporate bottom line by:

- Providing access to leading-edge technical information to keep your organization competitive
- Serving as the “go to” place for research, saving time and increasing productivity
- Decreasing costs of duplicate information purchasing and increasing your ROI
- Giving your team quick access to a comprehensive library of information that can improve quality and delivery time to market

New Option: customers can add access to full-text technical papers from 1990-1997.

Discover the benefits SAE Digital Information Solutions can bring to your business.
