

IEEE Computer Society Digital Library

IEEE Computer Society Subscription Option

Quality research for new and emerging computing technology

Stay on top of the latest technology advancements with research published by the foremost professional association on all aspects of computing technology. The IEEE Computer Society Digital Library provides access to authoritative computing research and thousands of articles on best practices and industry applications. Cited in technology patents more than any other publisher, the depth and breadth of content suits both academic and industry uses. Get the information needed to tackle tough research questions and discover cutting-edge computing breakthroughs.

IEEE Computer Society Digital Library delivers key benefits to your research team:

- Drive new ideas, designs, and applications with cutting-edge research
- Develop better solutions faster by understanding the technology landscape
- Stay ahead of advancements and benchmark competitor research
- Increase productivity by reviewing previous research so you don't reinvent the wheel
- Accelerate innovation with convenient access to proven research all in one place
- Increase scholarly output and new research development
- Stay ahead of the technology curve with the latest publications

Practical and applied research that gets results.

IEEE Computer Society Digital Library Quick Facts

Get convenient access to vital technology research:

Nearly 1 million top-quality computing articles and papers

50 IEEE Computer Society periodicals with all available archives

Over 200 annual conference titles with a backfile to 1995

The most highly-cited journals in the field

Convenient online access for all users in your organization

Career and curriculum resources like SWEBOK

Get a first-hand look at how much more the IEEE Computer Society offers. Visit computer.org/csdl

IEEE Computer Society Digital Library

Essential Resources for Computer Hardware Engineering

Hardware is a significant component of the computing discipline and trusted resources on the topic are essential for any computer science and engineering program. Ensure that you have access to leading content from a worldwide network of researchers with the IEEE Computer Society Digital Library.

Technical Magazines

- *Computer* (Impact factor: 2.0)
- *IEEE Micro* (Impact factor: 2.8)

Research Journals

- *IEEE Computer Architecture Letters* (Impact factor: 1.4)
- *IEEE Open Journal of the Computer Society* (Impact factor: 5.7)
- *IEEE Transactions on Computers* (Impact factor: 3.6)

The very latest research coming out of our conferences, including:

- SC—The International Conference for High-Performance Computing, Networking, Storage, and Analysis
- HPCA—IEEE International Symposium on High-Performance Computer Architecture
- *International Conference on Application-Specific Systems, Architectures and Processors (ASAP)*
- IEEE International Conference on Parallel Architectures and Compilation Techniques (PACT)
- HOTCHIPS (HCS)
- IEEE Robotic Computing (IRC)
- IEEE International Symposium on Hardware Oriented Security and Trust

Essential IEEE Computer Society Content in Hardware Technology

Access critical research on a variety of hardware topics via the IEEE Computer Society Digital Library.

Hardware	219,000+ documents
Architecture	337,000+ documents
Processor	137,000+ documents
Storage	171,000+ documents
Output	339,000+ documents
Performance Analysis	785,000+ documents

Computer's December 2022 issue, "Smart and Circular Cities" received a 2023 Grand APEX Award!
